Under electronic filing, I assume audit reports for pension plans would have to be attached as PDF files?

**FREEDOM OF INFORMATION ACT NOTICE**

The information in this email is subject to the record protection mandated by Section 552 of Title 5 of the United States Code, as amended, and by relevant judicial opinions.

The Freedom of Information Act (FOIA) was enacted in 1966 and provides that any person has the right to request access to federal agency records or information. All agencies of the United States government are required to disclose records upon receiving a written request for them, except for those records that are protected from disclosure by the nine exemptions and three exclusions of the FOIA. This right of access is enforceable in court. The federal FOIA does not, however, provide access to records held by state or local government agencies, or by private businesses or individuals. All states have their own statutes governing public access to state and local records; state agencies should be consulted for further information about them.
