Subject: Mental Health Parity and Addiction Equity Act of 2008

I would like to make a recommendation to make a few slight amendments to the proposed rules (**recommendations in bold**).

"MHPAEA requires the criteria for medical necessity determinations mad under the plan....be made available by the plan administrator...to any potential beneficiary ,or contracting provider **in writing** upon request."

The reason for any denial under the plan...be made available by the plan administrator to the participant or beneficiary **or provider in writing** in accordance with regulations.

Best Regards,
