Subject: Usurping the right to control private IRA and 401accounts.

I had the opportunity to read about your latest effort to begin to take control of my retirement account because you believe that I am incapable of managing my own money which I saved and have controlled since my retirement 8 years ago. During those 8 years, I have enjoyed a 17.2% growth in actual value and have taken my forced payouts since age 70 over and above the forced payouts.

I stand firmly oppsed to ANY (do you see that ANY that means none) government meddling with my retirement funds. They are mine not yours to manage. I see this as another letting the camel put his head in the tent govt. takeover. You have stolen from and bastardised social security to the point of making it into a collapsing ponzi scheme. You have screwed up my medical care with your plan to "help" me (my costs have increased 28% over the past two years). You have ruined the post office to the point of bankruptcy. You have increased the welfare to the point of creating whole generations of financially dependent recipients. (Yes, we pay for their breakfasts and lunches at school while the adult uses their food credits to buy whatever they want after selling their cards). You have opened the boarders so we can support illegal immigrants. The government surely is a mass of idiots primarily interested in securing their own employment and welfare.

In summary, the government in general can not manage anything correctly. If you want to work on something work on eliminating the department of labor to reduce the money wasted there.
