Subject: Attn: DOL

I support your concept of assigning fiduciary duty to every retirement plan advisor. I DO NOT want any encumbrances to reduce that advisor's ability to provide me with fiduciary advice. I DO NOT want more paperwork. I WANT access to speaking with a person who knows me and my situation whenever I have that need. I DO NOT want to see increased prices associated with this because of unnecessary regulations and administrative burdens.

I want FREEDOM of CHOICE when it comes to my investments. I DO NOT want government restrictions to strip me of any possibilities.

I DO NOT WANT REDUNDANT REGULATIONS – Especially those that hinder my path to financial freedom.

Thank you,

Elaine Kinder
