Subject: Don't regulate IRA

To whom it may concern:

It confuses me that the government rails against the 1% who make their money in an ostensibly unregulated market, yet would regulate the rest of us trying to get a piece of that pie. I currently have my own meager savings invested with a company that I trust that is doing a good job. I'm an adult and know the risks of the decisions I've made. Please don't regulate investment companies and IRA's any more than they already are.

Very Respectfully,

Mark J. Salinas
