Regarding this proposal: This government is going too far with this discussion of “stealing Americans 401K” in exchange for lifetime income.

Get out of our pockets and stop spending beyond your lifestyle. The govt clearly does not understand living within your means. If I we have no job

There is no income for you to tax!!! I am opposed to any program as this you will encourage people to spend it all or give it away. What are you thinkin!!!!!!! This progressive democratic policies must go.....
