Subject: RIN 1210-AB33

I will make this short and not so sweet.

I do NOT support converting 401(k)s into Government controlled annuity-like products being discussed in the Employee Retirement Income Security Act.

Please focus your efforts on shrinking the federal government and finding ways to give me back more of my HARD EARNED money! When you give me back more of my own money, I will invest it the way I see fit.

Thank you.
