Subject: preventive health care for women

I Join with the American Association of University Women (AAUW) in asking you to accept the recommendations of the Institute of Medicine as pertain to coverage of preventive care under the new health care law, and to reject any exemptions for "religious employers." These preventive services are a critical element of the new law and would provide countless women better access to necessary health care.

In my opinion, women have far too long been unnecessarily burdened by the extreme "religious" views of others.

I urge you to ensure women have access to quality preventive care by accepting IOM's recommendations and rejecting the proposed "religious" refusal exemption provisions.
