Subject: Supporting preventive care services for women
Date: Thursday, August 11, 2011 8:56:22 AM

Good morning--

I am joining with the American Association of University Women (AAUW) in asking you to accept the recommendations of the Institute of Medicine in support of coverage of preventive care under the new health care law, and to reject any exemptions for "religious employers." These preventive services are a critical element of the new law and will provide countless women better access to essential health care services. Thank you.
