Dear Sirs:

As a Science teacher at the Middle School level for 33 years in the State of California, I have become aware how important it is for women to have the opportunity to choose birth control in order to protect themselves from unwanted pregnancy at any age. I approve the movement to provide birth control as a option as it would render the need for abortion moot in many cases. Please support this initiative for the benefit of women and families in our communities.

Sincerely,

Lynn Leatherman Zimmershead
