### General Comment

I strongly support the new policy requiring health-insurance plans to cover birth control without a co-pay, CMS-9992-IFC2. Thank you for this important improvement to women's health care.

Improving women's access to birth control is positive in so many ways. A woman who can plan when to have a family is able to participate in society more fully. Allowing women to space their pregnancies contributes to healthy childbearing. And ultimately, fewer unintended pregnancies can reduce the need for abortion.

Thank you for following science-based recommendations and making women's health a priority.
