To Whom It May Concern:

I am writing today to CONTINUE to mandate that all "contraceptives" and sterilization procedures be covered by private health insurance with no co-pay to patients.

I strongly support provisions to bring free insurance coverage to Americans especially for drugs and devices that will have positive long term effects..

Americans should be able to protect their health and get medical attention and the current insurance system is definitely not working. Thank you for standing strong in these matters!!!

Sincerely,
Barbara Preston
