To Whom It May Concern:

I am writing today to ask in the strongest way possible that you rescind the unjust and coercive mandate that all "contraceptives," some of which may cause an abortion, and sterilization procedures be covered by private health insurance with no co-pay to patients. e I also ask you to expand conscience protections for any organizations that provide individual and group insurance and have moral or religious objections.

I also ask you to offer an authentic conscience protection for any organization and business that has moral or religious objection to providing such insurance to their employees. This legal mandate clearly violates the spirit of conscience laws which prohibit government discrimination against those who object to various health services on moral or religious grounds.

Please protect the conscience rights of insurers, providers and people like me who object to being forced by the federal government to offer or subsidize contraceptives and sterilization services. especially when some of these drugs can take the life of early unborn children. No American should be forced by the federal government to essentially subsidize services they object to.

Sincerely,  
Philip Sutton  
South Bend, IN 46617
