To Whom It May Concern:

I am writing today to ask in the strongest way possible that you rescind the unjust and coercive mandate that all "contraceptives" and sterilization procedures be covered by private health insurance with no co-pay to patients. If you do not reverse course I ask you to expand conscience protections for any organizations that provide individual and group insurance and have moral or religious objections.

I strongly oppose the government forcing free insurance coverage on Americans especially for drugs and devices that I strongly oppose because some of these can cause an abortion (such as ella and Plan B).

I also ask you to reconsider your definition of religious employer and offer an authentic conscience protection for any organization and business that has moral or religious objection to providing such insurance to their employees. This legal mandate clearly violates the spirit of conscience laws which prohibit government discrimination against those who object to various health services on moral or religious grounds.

Please protect the conscience rights of insurers, providers and people like me who object to being forced by the federal government to offer or subsidize contraceptives and sterilization services, especially when some of these drugs can take the life of early unborn children. No Americans should be forced by the federal government to essentially subsidize services which violate strongly held religious beliefs such as the innate value of human life. I again urge you in the strongest way possible to reverse course and remove contraceptives and sterilizations from the list of mandatory preventive services.

Sincerely,
Juliann Faulkner
