To Whom It May Concern:

Please rescind the unjust and coercive mandate that all "contraceptives" and sterilization procedures be covered by private health insurance with no cost to patients.

Even If you do not reverse course, please expand your definition of religious employer to include conscience protection for any organization and business that has moral or religious objection to providing such insurance. Government should not discriminate against those who object to various health services on moral or religious grounds. The current definition is too narrow.

Please protect the conscience rights of insurers, providers and people like me. REVERSE COURSE and REMOVE contraceptives and sterilizations from the list of mandatory preventive services.

Sincerely,
Vickie Regala
Asheville, NC 28806
