To Whom It May Concern:

I am writing today to ask in the strongest way possible that you rescind the unjust and coercive mandate that all "contraceptives" and sterilization procedures be covered by private health insurance with no co-pay to patients. This direction is paramount to taxation without representation and contrary in spirit to President Obama's promise to not use tax dollars to fund abortion. Although it is not technically tax dollars being used, the effect is the same as using tax dollars. Life is important at all phases of development and this recommendation greatly upsets me personally.

Unlike others, I feel any compromise for religious organizations is not sufficient since it forces the millions of people in the workforce who object to abortion and even contraceptives to fund such activities and also employers.

Sincerely,
William Patton
