---

Preventive care keeps women healthy! Requiring insurers to cover preventive health care like contraception, breast feeding support and screening for domestic violence and HIV -- without charging co-pays -- makes these services affordable for more women. And it helps women stay healthy.

Employers should not be able to deny a woman this coverage. It is the catholic hierarchy that opposes reproductive right NOT catholics. The option for contraceptives etc must be the province of individual women, not of their employers.

Please remove the proposed religious employer refusal provision from your Women's Preventive Services rule.
