## General Comment

As a Humanist I am bewildered by the widespread influence of religion in our government and how strongly religion impacts governmental rules and regulations. The mark of a great society is how well its citizens are treated. I implore you to end religious discrimination in health care and provide contraception to anyone who needs or wants it. Please take religion out of the decision making process and allow your common sense and compassion to dictate what is in the best interest of your fellow Americans.

Thank you.

Von Hurt
