Subject: pregnancy prevention as preventative health care
Date: Tuesday, September 27, 2011 11:22:07 PM

Dear HHS,

I would like to express my disagreement with the HHS stance on mandating contraception be providing on insurance plans, as this mandate does not seem to allow for doctors, like myself, and insurers and pharmacists and many others who have legitimate moral conflicts with some forms of contraception, to opt out.

So, as you consider laws for our great country, please take into consideration the moral obligations, convictions, and consciences of those you are requiring to comply.

Sincerely,

Dr. Jeff Henney
