Subject: Comment on Interim Final Rules for Group Health Plans and Health Insurance Issuers Relating to Coverage of Preventive Services; etc. (Document ID HHS-OS-2010-0018-0001)
Date: Wednesday, September 15, 2010 5:21:30 PM

Dear Secretary Sebelius

I strongly support Preventive Health Services, and I am incredibly surprised that contraception services have not been approved to be listed under preventive health care services, and may not be covered until 2013.

Please incorporate contraception into preventative health care service, at no cost to patients.

It is important to realize that:

- Contraception is part preventive care for women, and access to wide-ranging contraceptive care is in the best interest of women's health, children, and our communities.
- Support cost-sharing for preventive care services like contraception.
- We will not accept anymore unnecessary and unreasonable delays in access to contraceptive care as preventative health services.

We need your help to ensure access to family planning services in the dawn of health care reform for women, families and communities.
