Financial Factors in Selecting Plan Investments

Document: EBSA-2020-0004-DRAFT-0398
Comment on FR Doc # 2020-13705

Submitter Information

Name: Jonathan Siebers

General Comment

This rule should not be implemented. A significant number of American investors care deeply about what types of companies their investment dollars support, and want to feel good about the returns they receive on their investments. This rule interferes unnecessarily with giving Americans access to investments they want and should be able to make.
