General Comment

Federal Registrar John smith,

It's very important to me that those Americans, either working hard to make our country successful or that are retired and whose employers provide(d) retirement plans (401K, 403b, pensions, etc.), can have those savings invested in safe and sustainable ways that promote healthy returns, a healthy economy, and a healthy society and planet. Unfortunately, former President Trump took actions to defeat doing this. Thus, the rules that he put in place must be completely reversed by eliminating all prohibitions and burdens that discourage retirement plans from considering workplace safety, climate impact, racial equity and other conditions that affect the long-term sustainability of the business.

Frank Evelhoch, II
