General Comment

I am a senior...how sad that this "investment" is even available!
I Do Not want to invest in the future demise of our remarkable Planet! I Will Not invest in further hardship for my daughter and Her and future generations! How disgusting to even consider Retireme RV nt saving to be invested in increasing Carbon emissions To kill more wildlife, trees, ect. As well as exaserbate water depletion And feed forest fires. How absurd to invest in a dying technology! Are seniors brain dead?! No! We love our children and must do all We can while we are still here to ensure Life For them and their cohorts!
Sincerely,
Carole Onasch
