**Cc:** EBSA, E-OHPSCA - EBSA

**Subject:** Comments on the CHIP Notice

This is a rather long notice. To include all of the contact information of all the states significantly adds to the notice. While I understand the reasoning behind the inclusion of it, can it simply direct individuals to a website where the information will be updated as well? I have tried several ways of reducing the information to one page with no success.

Employees are inundated with notices during open enrollment, if the information is not kept short, it will be lost.

Thank you for your consideration.
