

# Women Small Business Owners: Improving Your Financial Security

Webinar on April 25, 2024  
2:00-3:30 PM ET

If you're a woman running a small business, you know that it can be both empowering and challenging. You have to make many decisions related to your business and its finances – but you still can't forget your own financial health. Your business takes a lot of work and determination... and so does your financial security. Working to grow and manage your business and planning for your personal financial future is important to meet your financial goals but presents challenges. The good news is that help is available!

As part of Financial Capability Month, the U.S. Department of Labor's Employee Benefits Security Administration (EBSA), joined by the Internal Revenue Service, the Small Business Administration's Office of Women's Business Ownership, and America Saves, will host a free webinar to **help women small business owners improve your financial security**. This webinar will provide practical information and tips to help you understand:

- Key considerations for women small business owners and resources available to help
- Retirement savings options available for small businesses and how to get started after choosing a plan
- Tax advantages of different retirement saving options and how they can benefit both you and your employees
- How to encourage your employees to save in your retirement plan

You started down the road to financial freedom by creating your business. Take advantage of the tips and resources available to help you grow your business, improve your financial security, and achieve your financial goals. Start by joining us for this free webcast!
