[To accompany H.R. 3288]

That the House recede from its disagreement to the amendment of the Senate and agree to the same with an amendment as follows:

DIVISION D—DEPARTMENTS OF LABOR, HEALTH AND HUMAN SERVICES, AND EDUCATION, AND RELATED AGENCIES APPROPRIATIONS ACT, 2010

The Departments of Labor, Health and Human Services, and Education, and Related Agencies Appropriations Act, 2010, put in place by this division incorporates the following agreements of the managers. Funds for the individual programs and activities within the accounts in this division are displayed in the detailed table at the end of the statement of the managers for this Act. Funding levels that are not displayed in the detailed table are identified within this statement of the managers. All references within this explanatory statement to the Recovery Act mean the American Recovery and Reinvestment Act of 2009 (Public Law 111–5).

In implementing this conference agreement, the Departments and agencies should be guided by the language and instructions set forth in House Report 111–220 and Senate Report 111–66 accompanying the bill, H.R. 3293. In cases where the language and instructions in either report specifically address the allocation of funds, each has been reviewed by the conferees and those that are jointly concurred in have been endorsed in this explanatory statement.

In cases in which the House or the Senate report requests or directs the submission of a report, such report is to be submitted to both the Committees on Appropriations of the House of Representatives and the Senate.

Section 516 sets forth the reprogramming requirements and limitations for the Departments and agencies funded through this division, including the requirement to make a written request to the Committees on Appropriations of the House of Representatives and the Senate 15 days prior to reprogramming, or to the announcement of intent to reprogram funds in excess of 10 percent or \$500,000, whichever is less, between programs, projects, and activities.

Departments and agencies funded in this division shall submit statements on the effect of this Act to the Appropriations Committees within 45 days of enactment of this Act, pursuant to section

518. The Committees on Appropriations of the House of Representatives and the Senate expect that these statements will provide sufficient detail to show the allocation of funds among programs, projects, and activities, particularly in accounts where the final appropriation is different than that of the budget request. Further, these statements also shall include the effect of the appropriation on any new activities or major initiatives discussed in the budget justifications accompanying the fiscal year 2010 budget.

TITLE I

Title I: Labor

DEPARTMENT OF LABOR

EMPLOYMENT AND TRAINING ADMINISTRATION

TRAINING AND EMPLOYMENT SERVICES

(INCLUDING TRANSFER OF FUNDS)

The conference agreement includes \$3,828,530,000 for Training and Employment Services instead of \$3,802,961,000 as proposed by the House and \$3,798,536,000 as proposed by the Senate. Of the amount appropriated, \$1,772,000,000 is an advance appropriation for fiscal year 2011 as proposed by both the House and the Senate.

Within the total for the Dislocated Worker Assistance National Reserve, the conference agreement does not include bill language to allow up to \$30,000,000 of this appropriation to be made available to the Career Pathways Innovation Fund as proposed by the Senate. The conferees urge the Secretary to give favorable consideration to grant applications from States whose allotment for dislocated worker employment and training activities in Public Law 111–8 was less than their allotment for such activities in Public Law 110–161. The conference agreement includes bill language to suspend section 173(e) of the Workforce Investment Act (WIA). Section 173(e) of the WIA facilitated the transition from the Job Training Partnership Act formula to the WIA formula; however, the WIA formula has been in effect for a decade and the transition is complete. The conferees note that suspending this provision will allow more funds to be available to respond to natural disasters and mass layoffs. Neither the House nor the Senate proposed a similar provision.

The conference agreement designates \$78,410,000 for migrant and seasonal farmworker formula grants instead of \$78,610,000 as proposed by the House and \$78,310,000 as proposed by the Senate. In addition, the conference agreement designates \$5,700,000 for migrant and seasonal farmworker housing instead of \$5,500,000 as proposed by the House and \$5,800,000 as proposed by the Senate.

Within the amount provided for Pilots, Demonstrations and Research, the conference agreement includes \$30,000,000 for a new competitive grant program to provide transitional jobs activities instead of \$35,000,000 as proposed by the House and \$40,000,000 as proposed by the Senate. The conference agreement provides an additional \$15,000,000 for these activities within the Reintegration of Ex-Offenders program, resulting in a total of \$45,000,000 for transitional jobs activities. The conferees direct the Department of Labor to consult with the Department of Health and Human Serv-

ices' Administration for Children and Families in designing the grant competition and awarding grants, consistent with House Report 111-220. In addition, the conferees note that funds should be used to leverage other resources to support program growth, consistent with Senate Report 111-66. The conference agreement includes bill language allowing up to 10 percent of funding for transitional jobs activities to be available for evaluation of such projects or transferred to the Department of Health and Human Services or the Department of Justice for support of transitional jobs activities as proposed by the Senate. The House bill included a provision to ensure that a sufficient portion of funds available for transitional jobs activities would be used for an evaluation of the program.

Within the amount provided for Pilots, Demonstrations and Research, the conference agreement also includes \$5,500,000 as proposed by the House to continue a program of competitive grants to address the employment and training needs of young parents. The Senate did not include funds for this activity. The Department should continue to award these competitive grants based on the criteria outlined in House Report 110-231.

The conference agreement includes \$48,889,000 for the following projects in the following amounts:

Within the funds provided for Reintegration of Ex-offenders, the conference agreement includes \$15,000,000 for transitional jobs activities as proposed by the House. The Senate included funds for transitional jobs activities within the Pilots, Demonstrations and Research program. The conference agreement designates that funds shall be available for obligation on April 1, 2010 as proposed by the Senate. The House proposed that funds shall be available for obligation on July 1, 2010. The conferees expect the Department of Labor to consult with the Department of Justice in awarding competitive grants for transitional jobs activities.

The conferees support the Department's proposed spending priorities for the Reintegration of Ex-offenders program, as identified in the congressional budget justification. Given that the conference agreement adopts a funding level below the request, the conferees request that an operating plan be submitted to the Committees on

Appropriations of the House of Representatives and the Senate not later than 45 days after enactment of this Act.

The conference agreement establishes a separate line item for the Career Pathways Innovation Fund. The Career Pathways Innovation Fund replaces the Community-Based Job Training Grants program, which previously received funding under the Dislocated Worker Assistance National Reserve. The conference agreement includes a set-aside of not less than \$65,000,000 for competitive grants that prepare workers for careers in the health care sector as proposed by the House. The Senate did not include a set-aside within the Career Pathways Innovation Fund.

The conferees note that from November 2000 to November 2009 manufacturing employment in the United States declined by more than 5.5 million jobs. The conferees encourage the Secretary to consider competitive grant opportunities to train and place returning veterans, the underemployed, high school graduates, and traditional manufacturing employees so they can achieve the skills necessary to fill jobs in growing sectors of the high skilled, high tech and precision manufacturing industry.

The conferees direct the Department of Labor and the Department of Health and Human Services to establish an interagency taskforce and submit a strategic plan for addressing emerging needs in the health care sector, consistent with House Report 111-220.

COMMUNITY SERVICE EMPLOYMENT FOR OLDER AMERICANS

The conference agreement includes \$825,425,000 for Community Service Employment for Older Americans (CSEOA) instead of \$615,425,000 as proposed by the House and \$575,425,000 as proposed by the Senate. Within the total, \$225,000,000 is available upon the enactment of this Act and shall remain available through December 31, 2011. Neither the House nor the Senate proposed a similar availability period.

The conferees are aware that additional resources provided in the Recovery Act are insufficient to meet the needs of low-income older workers adversely impacted by the recession. Many CSEOA grantees are maintaining waiting lists for available community service jobs but are unable to fill those jobs due to funding limitations. In determining those current grantees that can effectively use funds made available immediately in this Act, the Secretary should take into account demonstrated need, financial management, and sustained and satisfactory performance.

STATE UNEMPLOYMENT INSURANCE AND EMPLOYMENT SERVICE OPERATIONS

The conference agreement includes \$4,113,681,000 for State Unemployment Insurance and Employment Service Operations instead of \$4,097,056,000 as proposed by the House and \$4,113,806,000 as proposed by the Senate.

The conference agreement includes \$60,000,000 for in-person reemployment and eligibility assessments and unemployment insurance improper payment reviews. This amount includes \$50,000,000 available for these purposes through a discretionary spending cap adjustment established in the fiscal year 2010 con-

gressional budget resolution. In addition to increasing support for in-person reemployment and eligibility assessments, the Department should continue to make a portion of these funds available for technology-based overpayment prevention, detection, and collection activities. In fiscal year 2009, the Department funded State requests for technology-based projects through a combination of the discretionary spending cap adjustment and the appropriation for State Operations for Unemployment Insurance. The conferees encourage continuation of this practice.

The conference agreement includes \$12,000,000 within One-Stop Career Centers and Labor Market Information funding to carry out the language in Senate Report 111-66 regarding disability-related employment planning and activities. The Senate proposed \$12,000,000 for these activities, along with an additional \$12,000,000 in the Office of Disability Employment Policy (ODEP) account. The House proposed \$10,000,000 in ODEP for similar activities.

The conference agreement includes such sums as necessary for Advances to the Unemployment Trust Fund and Other Funds as proposed by both the House and the Senate.
