- Data come from WIOA 9130 financial reports for the 09/30/17 reporting period accessed from E-Grants on 03/28/2018.
- Aberrations, such as negative obligation rates or those over $100 \%$, usually result from errors or adjustments in 9130 reporting for prior periods being corrected in current period reports. They are a result of reporting on a cumulative basis and an ETA policy that limits the States's or Territories's ability to correct quarterly reports.

Notes:

* ETA estimates the state/local split for newly available FY funds because financial reports are not yet available

Data come from WIOA 9130 financial reports for the 09/30/17 reporting period accessed from E-Grants on 03/28/2018.

- Aberrations, such as negative obligation rates or those over 100\%, usually result from errors or adjustments in 9130 reporting for prior periods being corrected in current period reports. They are a result of reporting on a cumulative basis and an ETA policy that limits the States's or Territories's ability to correct quarterly reports.

[^1]- Data come from WIOA 9130 financial reports for the 09/30/17 reporting period accessed from E-Grants on 03/28/2018.
- Aberrations, such as negative obligation rates or those over 100\%, usually result from errors or adjustments in 9130 reporting for prior periods being corrected in current period reports. They are a result of reporting on a cumulative basis and an ETA policy that limits the States's or Territories's ability to correct quarterly reports.

Data come from WIOA 9130 financial reports for the 09/30/17 reporting period accessed from E-Grants on 03/28/2018.
Aberrations, such as negative obligation rates or those over 100\%, usually result from errors or adjustments in 9130 reporting for prior periods being corrected in current period reports. They are a result of reporting on a cumulative basis and an ETA policy that limits the States's or Territories's ability to correct quarterly reports.

## Notes:

* ETA estimates the state/local split for newly available FY funds because financial reports are not yet available.
- Data come from WIOA 9130 financial reports for the 09/30/17 reporting period accessed from E-Grants on 03/28/2018.

Aberrations, such as negative obligation rates or those over 100\%, usually result from errors or adjustments in 9130 reporting for prior periods being corrected in current period reports. They are a result of reporting on a cumulative basis and an ETA policy that limits the States's or Territories's ability to correct quarterly reports.

## Notes:

ETA estimates the state/local split for newly available FY funds because financial reports are not yet available

- Data come from WIOA 9130 financial reports for the 09/30/17 reporting period accessed from E-Grants on 03/28/2018.

Aberrations, such as negative obligation rates or those over $100 \%$, usually result from errors or adjustments in 9130 reporting for prior periods being corrected in current period reports. They are a result of reporting on a cumulative basis and an ETA policy that limits the States's or Territories's ability to correct quarterly reports.

[^2]Data come from WIOA 9130 financial reports for the 09/30/17 reporting period accessed from E-Grants on 03/28/2018.

- Aberrations, such as negative obligation rates or those over 100\%, usually result from errors or adjustments in 9130 reporting for prior periods being corrected in current period reports. They are a result of reporting on a cumulative basis and an ETA policy that limits the States's or Territories's ability to correct quarterly reports

[^0]:    Notes:

    * ETA estimates the state/local split for newly available FY funds because financial reports are not yet available.
