## Notes:

- Data come from WIOA 9130 financial reports for the 6/30/22 reporting period accessed from E-Grants on 1/24/23.
- Aberrations, such as negative obligation rates or those over $100 \%$, usually result from errors or adjustments in 9130 reporting for prior periods being corrected in current period reports. They are a result of reporting on a cumulative basis and an ETA policy that limits the States' or Territories' ability to correct quarterly reports.

## Notes:

- Data come from WIOA 9130 financial reports for the 6/30/22 reporting period accessed from E-Grants on 1/24/23.
- Aberrations, such as negative obligation rates or those over $100 \%$, usually result from errors or adjustments in 9130 reporting for prior periods being corrected in current period reports. They are a result of reporting on a cumulative basis and an ETA policy that limits the States' or Territories' ability to correct quarterly reports.

Notes:

- Data come from WIOA 9130 financial reports for the 6/30/22 reporting period accessed from E-Grants on 1/24/23.
- Aberrations, such as negative obligation rates or those over 100\%, usually result from errors or adjustments in 9130 reporting for prior periods being corrected in current period reports. They are a result of reporting on a cumulative basis and an ETA policy that limits the States' or Territories' ability to correct quarterly reports.

Notes:

- Data come from WIOA 9130 financial reports for the 6/30/22 reporting period accessed from E-Grants on 1/24/23.
- Aberrations, such as negative obligation rates or those over 100\%, usually result from errors or adjustments in 9130 reporting for prior periods being corrected in current period reports. They are a result of reporting on a cumulative basis and an ETA policy that limits the States' or Territories' ability to correct quarterly reports.

## Notes:

- Data come from WIOA 9130 financial reports for the 6/30/22 reporting period accessed from E-Grants on 1/24/23.
- Aberrations, such as negative obligation rates or those over 100\%, usually result from errors or adjustments in 9130 reporting for prior periods being corrected in current period reports. They are a result of reporting on a cumulative basis and an ETA policy that limits the States' or Territories' ability to correct quarterly reports.
