

POLICY GUIDANCE: Credential Attainment and Post Separation Services

- Page 12 of the FOA states that post-separation services include “providing participants with ongoing support to ensure continued employment, further education, licensing in the field in which they were certified, and career progression.”
- Grantees should use [TEN 25-19](#) “Understanding Postsecondary Credentials in the Public Workforce System” as instructive guidance on ensuring that credentials offered through the training program are relevant in aiding the Job Corps eligible youth in either 1) securing a job, 2) entering an apprenticeship, 3) continuing education for an associates or four-year degree, or 4) joining the military.
