Dear Leaders,

Please do not allow American taxpayers and insurance companies to have to be forced to be complicit with baby murder aka abortion by forcing Obamacare contraceptive and sterilization including abortion!

Obamacare has already been declared unconstitutional and should not be continued to be implementing unless Obama gets a reversal!

Please rescind this unconstitutional, unlawful, unethical and unjust coercion mandating controversial procedures be covered by private health insurance with no co-pay to patients.

If you do not reverse course I ask you to expand conscience protections for any organizations providing individual/group insurance with moral or religious objections.

The majority of Americans strongly oppose government forcing free insurance coverage on Americans especially for drugs and devices breaking the Hippocratic Oath to "First, do no harm" including Plan A and Plan B.

I also ask you to reconsider your definition of religious employer and offer an authentic conscience protection for any organization and business with moral or religious objection to providing such insurance to their employees.

This legal mandate clearly violates our spirit of conscience laws prohibiting government discrimination against those objecting to health services on moral or religious grounds.

The definition of "religious employer" in the regulation is so narrow as to only include churches resulting in a host of businesses and organizations with conscience objections forced to choose between violating conscience or not offering employees health insurance.

Please protect the conscience rights of insurers, providers and people like me who object to being forced by our federal government supposed to be serving us, not us the government.

It is unacceptable that we be forced to offer or subsidize contraceptives and sterilization services, especially when some of these drugs and procedures can take the life of early unborn children and harm women.

No Americans should be forced by the federal government to essentially subsidize services objected to! I again urge you in the strongest way possible to reverse course and remove contraceptives and sterilizations from the list of mandatory preventive services.

Thank you for standing up for our Constitutional and human rights--our United States of America foundation.

Sincerely,

Sincerely,
Aleen O'Sullivan
