

Notice of Critical Status For National Integrated Group Pension Plan

This is to inform you that on March 31, 2015, the plan actuary certified to the U.S. Department of the Treasury, and also to the plan sponsor, that the plan is in critical status for the plan year beginning January 1, 2015.¹ Federal law requires that you receive this notice.

Critical Status

The plan is considered to be in critical status because it has funding or liquidity problems, or both. More specifically, the plan's actuary determined that the plan is projected to have an accumulated funding deficiency for the plan year ending December 31, 2015.

Rehabilitation Plan

Federal law requires pension plans in critical status to adopt a rehabilitation plan aimed at restoring the financial health of the plan. This is the seventh year the plan has been in critical status. The law permits pension plans to reduce, or even eliminate benefits called "adjustable benefits" as part of a rehabilitation plan. The NIGPP trustees have adopted a rehabilitation plan that, as the law permits, reduces, or eliminates, benefits called "adjustable benefits" as part of the rehabilitation plan. On April 30, 2010, and on December 1, 2012, you were notified that the plan reduced or eliminated adjustable benefits. On April 30, 2009, you were notified that as of April 30, 2009, the plan is not permitted to pay lump sum benefits (or any other payment in excess of the monthly amount paid under a single life annuity) while it is in critical status. If the trustees of the plan determine that further benefit reductions are necessary, you will receive a separate notice in the future identifying and explaining the effect of those reductions. Any reduction of adjustable benefits (other than a repeal of a recent benefit increase, as described below) will not reduce the level of a participant's basic benefit payable at normal retirement. In addition, the reductions may only apply to participants and beneficiaries whose benefit commencement date is on or after April 30, 2009.

Adjustable Benefits

The plan offers or offered the following adjustable benefits that may be or have been reduced or eliminated as part of the rehabilitation plan:

- Disability benefits (if not yet in pay status);
- Death benefit subsidies;

¹ The plan actuary's certification of March 31, 2015, also stated that the plan is in critical and declining status for the plan year beginning January 1, 2015, under the standards of newly enacted federal legislation (the Multiemployer Pension Plan Reform Act of 2014).

Early retirement benefits or subsidies;
Benefit increases occurring in the 5 years before January 1, 2009;
Joint & Survivor forms of annuity subsidies;
Certain optional forms

Employer Surcharge

The law requires that all contributing employers pay to the plan a surcharge to help correct the plan's financial situation. The amount of the surcharge is equal to a percentage of the amount an employer is otherwise required to contribute to the plan under the applicable collective bargaining agreement. With some exceptions, a 5% surcharge was applicable in the initial 2009 critical year and a 10% surcharge is applicable in 2010 and each succeeding plan year thereafter in which the plan is in critical status. The surcharge will cease to apply with respect to employees covered by a collective bargaining agreement as of the effective date of an agreement covering those employees that includes terms consistent with one of the schedules of the rehabilitation plan.
