## **Notice of Endangered Status for the Asbestos Workers Local 42 Pension Fund**

---

This is to inform you that on March 31, 2022 the plan actuary certified to the U.S. Department of the Treasury, and also to the plan sponsor, that the plan is in endangered status for the plan year beginning January 1, 2022. Federal law requires that you receive this notice.

### **Endangered Status**

The plan is considered to be in endangered status because the plan's actuary has determined that the plan's funded percentage is 76.9% which is less than 80%. The Plan is not currently projected to have a funding deficiency at any point in the projection period. Note that the terms "endangered status" and "funding deficiency" have legally defined meanings.

### **Funding Improvement Plan**

In accordance with Federal law, the Trustees have adopted a funding improvement plan ("FIP") aimed at improving the funded status of the plan so that the Plan may meet the applicable benchmarks established by the Pension Protection Act of 2006 ("PPA"). As part of the funding improvement plan, the funded percentage of the plan must be increased by one-third by the end of the 15-year funding improvement period. The FIP went into effect in September of 2018. A summary of the FIP is available from the Fund Office. The Trustees of the Plan, with the assistance of its attorneys and actuaries, will monitor the progress of the Plan's funding each year to determine whether the requirements of the PPA are met.
