General Comment

Hello,

I am writing to express my support for the Fiduciary Rule. As someone who has worked for 25 years full-time and 30 years in total I feel it is crucial that the financial planners that I talk with about my investments and my retirement savings have a legal requirement to give me advice and make decisions that are in my best interest and not their own. By delaying and blocking this rule you are placing millions of peoples retirement savings at risk of not growing at rates they should. This can have an major impact on the quality of life we have as retirees and also increase the need we have for federal assistance in our golden years. Please do not delay this important rule and longer.
