To: Talk to DOL

Subject: Allow the DOL rule to be implemented

Dear Secretary Acosta,

I am writing to urge you to allow the new DOL rule on retirement accounts to be enacted without delay. As an individual with 18 years of financial services experience, I have seen investors (particularly the elderly) abused and overcharged by unethical or under-trained individuals in the industry, and this new rule will help reduce those abuses.

PLEASE do not delay the implementation of the rule; it is designed to help those with retirement accounts, and it's a big move in the right direction. I applaud the DOL for taking the initiative on this.

Regards,

Dave Mack

St. Louis, MO
