Department of Labor,

I already pay an agreed upon percentage for the advice of my financial planner. I would like to be assurance that he/she is earning that fee for plans that benefit me, not for products from which he/she earns additional fees. Most consumers don't have the ability to invest without advice. Do not allow these people to legally steal our hard earned retirement dollars. I urge the Department of Labor to protect working people and retirees by fully implementing and enforcing the fiduciary rule.
