Subject: RIN 1210-AB82 Protect retirees: Fully implement and enforce the fiduciary rule
Date: Tuesday, July 25, 2017 2:47:44 AM

Department of Labor,

The fiduciary standard is clearly the morally and ethically correct standard for financial advisers to follow.

It is shameful that a rule requiring this standard hasn't been in place for decades.

To now eliminate this rule would be a heinous act, a blatant move on the part of the greedy, and their toadies in government, to steal even more money from those who can least afford to be ripped off.
