Subject: Feedback on Fiduciary Rule delay

Secretary Acosta,

In March, you stated that there should be no further delay to the implementation of the DOL rule. Four months later, the DoL requests a delay of 18 months. Not only does this make your ship appear rudderless, the bigger issue is that it means *another* delay in protecting individual investors. Do you think this will help increase or decrease American's apathy and frustration toward their government? Millions of Americans are very disappointed that you are choosing to appease Big Banks and Business over individual investors.
