Comment on FR Doc # 2015-08831

Submitter Information

Name: JK Harter

General Comment

Against the elimination of options in a retirement account:

Many aspects of this proposed regulation sound good but taking away the ability (right?) to use options in a retirement account will eliminate the ability to insure the safety of the account. Options, when used correctly, increase the safety of an account by insuring against a severe loss and along the way can boost the value of the account.

Please rewrite this regulation to provide essential tools to manage retirement accounts
