## General Comment

Taking away the use of options in an IRA account is against what has been a very successful use in order to:

- 1 .Protect other investments in the IRA
2. Reap rewards by using options in a careful manner
3. Since I have been taught the careful use of options in an IRA which has benefitted me and most other investors who carefully use options in IRAs to safeguard their other investments and to use for their own benefit.

Please delete the restrictions on the use of options in an IRA in this Rule Change.

Respectfully

Stuart Myers
