General Comment

Please do not take away Americans' right to trade options in IRAs. We sell safe covered calls and covered puts to generate income to live on since the FED has taken away our ability to generate income from safe CDs with their ZIRP of the last seven years. Selling options is not the same as buying them. It is very low risk, not high risk. Please do not treat us like children. We are adults who have a right to make our own financial decisions and judgements. It is not the role of our government to protect us from ourselves and the risks perceived by our government.
