General Comment

I have been investing toward my retirement for the past 35 years. My results have never been as safe and reliable as they have been for the past 12 years. What made the difference? It was the fact that I learned how to use options to reduce risk and consequently dramatically improve my odds of success.

PLEASE DO NOT TAKE THIS AWAY FROM ME AND SO MANY OTHER AMERICANS WHO RELY ON THEIR RETIREMENT PLANS FOR THEIR FINANCIAL FUTURE!

If you need to modify anything -- then modify whether or not a person can use leverage in their retirement accounts. You could limit the % of their account that could be used in any individual investment -- eg. 5%.

Do not alter our ability to be more safe in our investing!

Please change the wording of this legislation so that properly used options are still allowed and we can safely improve the likelihood of successful investing!
