## General Comment

Stay out of my financial business!! Especially, my retirement accounts!! NOTHING the government "improves" EVER ends up better than it originally was!! NOTHING!!! (try and name one!). The government ALWAYS screws-up benefit/cost analysis assumptions and outcomes, try and name a time when one was even close to being PROVEN right!

I need the ability to buy and sell covered call options in my retirement accounts, to provide income and risk protection. I have used this ability many times for this purpose! Why would you want to take this ability away from we the citizens, and yourselves? Or, will the government and its employees be exempt from these proposed regulations, as usual?

Leave the regulations as they are! Stop messing with our money, and keep out of citizen's private business!
