General Comment

I realize that the government should be providing a safety net for savings, but I think in some cases there is just too much big brother involved. Trading options in my IRA should be my right; being told what to do with my money is an infringement on that right. I have taken the time to learn how to use options to help minimize my risk and possibly earn a few extra bucks in my account. The rich and connected people in our country use options to profit tremendously every day of the week. I don't think I shouldn't have the same opportunity as these people.
