## General Comment

Please do not remove our rights to trade options in our IRA accounts. Many of us take the time to use this valuable tool to reduce risk and improve performance of our retirement accounts. If used properly, options trading becomes an extremely valuable tool. It is not the governments place to tell us how to invest our money. The government does everything possible to protect the profits and income of the top 1%. They have become richer and richer at the expense of the middle and working classes. We deserve and need the rights to help maximize out retirement accounts, and for those of us who put in the time to learn, options trading is an important part of our overall strategy. Quit making it harder for us to retire comfortably. You can never legislate enough to save reckless people from themselves, but you can obstruct and inhibit those of us who are sensible and informed from ever having a comfortable retirement. Please stop limiting the ways we might improve our fortunes in our retirement years. Preserve the right for retail investors to trade options in IRA accounts.

Thanks you

Sincerely

Jay Bulloch
