Comment on FR Doc # 2015-08831

Submitter Information

Name: Eliot Carlson

General Comment

Options trading reduces risk, it does not increase investor risk. I have learned the proper way to trade options and using considerate position sizes and only opening options on stocks I want to own, I have learned to do this correctly. It is not gambling, it is setting a price I wish to pay. I do not think that this rule should be enacted.
