General Comment

I would strongly urge the EBSA to NOT restrict in any way the rights of the owner of an IRA to engage in the buying and selling of stock options (puts and calls) within a self-directed IRA account. I have taken the time to learn how to do this properly and it has increased my earnings within my IRA appreciably. Without the ability to sell or buy options, my current IRAs would have been losing money rather than making money over the past several months of tumultuous volatility in the stock market.
