<p>Period of Performance</p> <p>5/1/2019-6/30/2021</p> 	<p>Approved Amount</p> <p>Up to \$8,805,300*</p> 
<p>Planned Participants</p> <p>420</p> 	<p>Target Population</p> <p>Dislocated Workers</p> 

\*The grant approval threshold does not represent the current obligation of funds.

## Severe Storms 2019

GRANT NUMBER: **EM-33742-19-60-A-6**

Counties are: *Amador, Butte, Calaveras, Colusa, Del Norte, El Dorado, Glenn, Humboldt, Lake, Marin, Mariposa, Mendocino, Modoc, Monterey, Napa, Riverside, Santa Barbara, Shasta, Sonoma, Tehama, Trinity and Tuolumne.*

### Qualifying Events

Two major storm systems impacted counties across the state from February 13 – March 1, 2019. The torrential rains, heavy snow, and wind gusts resulted in widespread flooding, power outages, and severe infrastructure damage. The record-breaking rainfall further eroded areas recently destroyed by multiple wildfires, causing landslides, mudslides, and mandatory evacuations.

### Proposal Summary

The purpose of the proposed project is to create disaster-relief employment for eligible individuals to assist with cleanup and recovery activities in response to severe storms occurring in February and March 2019. As a result of the storm, the State of CA received two major disaster declarations from the Federal Emergency Management Agency (FEMA), under California Severe Winter Storms, Flooding, Landslides, and Mudslides (DR-4431 and DR-4434).

### Project Description

These Federal declarations allow the state to receive DWG funding from the Department of Labor. These funds will allow the state to create approximately 420 disaster-relief jobs to address cleanup and recovery activities in the aftermath of these severe storms.
