WIPS 17.4 Release Overview

On November 25th, the WIPS 17.4 release deployed to production.

This release includes,

- Updates to new and existing logical validation rules
- Apprenticeship was removed as a target program from existing logical validation rules
- Valid Values rules were updated for existing data elements
- Updates were made to the ETP edit check results tab so that grantees assigned to same State should be able to view each other's edit check results & ETP Report
- Updates were made to NDWG calculations to only include grants that start with the characters; "DW", "MI" or "EM"
- Minor updates were made to the aggregations for Retention with the Same Employer measure for the NDWG program
- The submitter user role function can now attach and save documents on the Quarterly Narrative Report (QNR)
- YouthBuild QPR calculations were refactored and a new drilldown feature was implemented
- YouthBuild's recipient and grant number will now be displayed on the QPR interface
