**TRAINING AND EMPLOYMENT GUIDANCE LETTER NO. 25-05, Change 1**

**TO:** ALL STATE WORKFORCE AGENCIES  
 ALL STATE WORKFORCE LIAISONS

**FROM:** EMILY STOVER DeROCCO  
 Assistant Secretary 

**SUBJECT:** Workforce Investment Act (WIA) Adult and Youth Programs Final Allotments for Program Year (PY) 2006, and Additional PY 2006 Funding from WIA Section 173(e) for Adult/Dislocated Worker Activities for Eligible States

1. **Purpose.** To provide states with WIA Title I Adult and Youth Activities Programs final allotments for PY 2006 and related additional PY 2006 WIA Section 173(e) funds for eligible states.
2. **References.** Workforce Investment Act of 1998, (29 U.S.C. 2801 et seq.) P.L. 106-113; Planning Guidance and Instructions for Submission of Two Years of the Strategic Five-Year State Plan for Title I of the Workforce Investment Act of 1998 and the Wagner-Peyser Act (64 F.R. 9402 (April 12, 2005)); Training and Employment Guidance Letter (TEGL) 14-05 (February 9, 2005); TEGL 20-05 (March 14, 2006); TEGL 25-05 (April 11, 2006).

<b>Rescissions:</b>	<b>Expiration Date:</b>  Continuing
---------------------	---

3. **Background.** The WIA allotments for states announced in this TEGL change are based on formula provisions defined in the Act (see Attachment I for WIA program formula descriptions). The funds for the allotments are part of the FY 2006 funds appropriated in the Departments of Labor, Health and Human Services, and Education, and Related Agencies Appropriations Act, 2006, P.L 109-149, signed into law December 30, 2005, and also include a government-wide reduction of 1.0 percent to all FY 2006 discretionary programs as required by the Department of Defense, Emergency Supplemental Appropriations to Address Hurricanes in the Gulf of Mexico, and Pandemic Influenza Act, 2006, P.L. 109-148, December 30, 2005.

TEGL 25-05, issued April 11, 2006, provided PY 2006 “planning estimates” for the WIA Youth and Adult programs in lieu of final allotments while states revised the areas of substantial unemployment (ASU) data needed for the allotment formulas. The “planning estimates” were based on the minimum amounts states are guaranteed under the WIA formula minimum provisions. Consistent with these minimum provisions, “planning estimate” amounts were equivalent to the higher of: 90 percent of their PY 2005 allotment percentage (not dollars) applied to the PY 2006 total funds available for states or, if higher, 0.25 percent of the total PY 2006 funds available for states. Revised ASU data have now been received from the states and the final allotments announced in this TEGL change reflect this revised data. In the final allotment calculations, some states remain entitled to only the minimum amount, and thus will receive no additional funds above their minimum. Those states whose revised data generated an amount above their minimum amount will also be entitled to those additional funds. WIA allotments for the outlying areas for the Youth and Adult programs and Native Americans allotments in the Youth program remain unchanged from the levels announced in TEGL 25-05.

4. **State Youth Activities Funds: Title I--Chapter 4--Youth Activities.**

- A. **State Final Allotments.** The total appropriation for PY 2006 for WIA Youth Activities is \$940,500,000, which includes \$14,107,500 for Native Americans, \$924,041,250 for states, and \$2,351,250 for outlying areas. Attachment II contains a breakdown of the WIA Youth Activities final allotments by state for PY 2006 and a comparison to PY 2005.

The three factors required in WIA for the Youth state allotment formula use the following data for the PY 2006 final allotments:

- (1) number of unemployed for ASUs, averages for the 12-month period, July 2004 through preliminary June 2005, as revised by the states under revised ETA guidance in TEGL 20-05;
- (2) number of excess unemployed individuals or the ASU excess unemployed individuals (depending on which is higher), averages for the same 12-month period as used for ASU unemployed data; and

- (3) number of economically disadvantaged youth (age 16 to 21, excluding college students and military), as counted in the 2000 census.

Because the total amount available for this program for states in PY 2006 is below the required \$1 billion threshold specified in WIA Section 127(b)(1)(C)(iv)(IV), as it also was in PY 2005, the WIA additional minimum provisions are not applicable. Instead, as required by WIA, the Job Training Partnership Act (JTPA) section 262(a)(3) (as amended by section 701 of the Job Training Reform Amendments of 1992) minimums of 90 percent hold-harmless of the prior year allotment percentage and 0.25 percent state minimum floor are applicable. WIA also requires the application of a 130 percent stop-gain of the prior year allotment percentage.

- B. PY 2006 Funding Agreement/Notice of Obligations (NOOs). Pursuant to WIA section 189(g)(1)(B), funding for Youth program planning estimates, as announced in TEGL 25-05, was issued in NOO's in April 2006. Now that final allotments have been calculated, NOO modifications with an effective date of April 1, 2006, will now be issued for any remaining youth funds in the final allotments due to applicable states (see Attachment IV).
- C. Within-State Allocations. Total final Youth Activities funds for PY 2006 are to be distributed among local workforce investment areas (subject to reservation of up to 15 percent for statewide workforce investment activities) in accordance with the provisions of WIA Section 128 and according to the approved state plan. For the substate ASU data to be used for the within-state youth allocation formula, states have the option of using the data identified under either Field Memorandum 16-05 (September 6, 2005) or the revised ETA guidance issued in TEGL 20-05, Change 1 (April 13, 2006). For purposes of developing the number of economically disadvantaged (higher of poverty level or 70% of Lower Living Standard Income Level, excluding college and military) youth, age 16 to 21, for the statutory formula, the special 2000 census data provided to states for the youth within-state allocations beginning in PY 2004 should continue to be used. As in PY 2005, there is an exception to this definition for four states with Rural Concentrated Employment Program grantee areas. For those areas, the four states are to use the higher of the number of individuals age 16 to 21 that are below the low-income level applicable for the state (special 2000 census tabulation data were also provided for these states), or the number of economically disadvantaged individuals, age 16 to 21, as described above.
- D. Transfers of Funds. As stated in TEGL 25-05, there is no authority for local workforce investment areas to transfer funds to or from the Youth Activities program.
- E. Reallotment of Funds. As stated in TEGL 25-05, reallotment of Youth Activities formula funds, as provided for by WIA Section 127(c), will be based on PY 2005 financial reports submitted by the states. Reallotment of funds among states

under WIA will occur during PY 2006 based on obligations made during PY 2005 (20 CFR §667.150 of the WIA interim final regulations). There was no recapture/reallotment of youth funds in PY 2005.

5. **State Adult Employment and Training Activities Funds: Title I--Chapter 5--Adult and Dislocated Worker Employment and Training Activities.**

- A. **State Final Allotments.** The total appropriation for PY 2006 for Adult Activities is \$864,198,640, of which \$862,038,143 is for states and \$2,160,497 is for outlying areas. Attachment III-A shows the PY 2006 Adult Activities final allotments by state and comparison to PY 2005 (post-rescission). The three formula factors for the Adult Activities program use the same data as used for the Youth Activities formula, except that data for the number of economically disadvantaged adults (age 22 to 72, excluding college students and military) are used.

Since the total amount available for the Adult program for states in PY 2006 is below the required \$960 million threshold specified in WIA Section 132(b)(1)(B)(iv)(IV), as it also was in PY 2005, the WIA additional minimum provisions are not applicable. Instead, as required by WIA, the JTPA section 202(a)(3) (as amended by section 701 of the Job Training Reform Amendments of 1992) minimums of 90 percent hold-harmless of the prior year allotment percentage and 0.25 percent state minimum floor are applicable. Also, like the youth program, the provision applying the 130 percent stop-gain of the prior year allotment percentage was used.

- B. **NOOs.** For PY 2006, Congress appropriated funds for this program in two portions: \$152,198,640 available for obligation on July 1, 2006 (PY 2006) and \$712,000,000 available for obligation on October 1, 2006 (FY 2007). Formula allotments to states are calculated on a full year basis and then prorated based on these amounts (see Attachment III-B). Since final allotments were not announced before July 1, the July 1 NOO amount issued under the PY 2006 WIA grant agreement was based on the portion of the state planning estimates for July 1 described in TEGL 25-05. Now that final allotments have been calculated, the remaining July 1 funds will be issued to applicable states in NOO modifications with an effective date of July 1, 2006 (see Attachment IV). NOOs for October 1, 2006 (also under the PY 2006 WIA grant agreement), will reflect the full October 1 portion of the final allotments.
- C. **Within-State Allocations.** Total final Adult Activities funds for PY 2006 are to be distributed among local workforce investment areas (subject to reservation of up to 15 percent for statewide workforce investment activities) in accordance with the provisions in WIA Section 133 and according to the approved state plan. Similar to the youth program, states have the option of using the ASU data identified under either Field Memorandum 16-05 (September 6, 2005) or the revised ETA guidance issued in TEGL 20-05, Change 1 (April 13, 2006) for the within-state adult allocation formula. For purposes of developing the number of

economically disadvantaged (higher of poverty level or 70% of Lower Living Standard Income Level, excluding college and military) adults, age 22 to 72, for the statutory formula, the special 2000 census data provided to states for the adult within-state allocations beginning in PY 2004 should continue to be used. The same exception to this definition described for the youth program above applies for the four states with Rural Concentrated Employment Program grantee areas: for those areas, the four states are to use the higher of the number of individuals age 22 to 72 below the low-income level applicable for the state (using special 2000 census data provided for this purpose), or the number of economically disadvantaged individuals, age 22 to 72, for the WIA statutory formula.

D. Transfers of Funds. As described in TEGL 25-05, WIA Section 133(b)(4) provides the authority for workforce investment areas, with approval of the Governor, to transfer up to 20 percent of the Adult Activities funds to Dislocated Worker Activities, and up to 20 percent of Dislocated Worker Activities funds to Adult Activities. The 2006 appropriation enacted by Congress raised these transfer limits to 30 percent for appropriated 2006 funds, applicable for the life of the funds.

E. Reallotment of Funds. As described in TEGL 25-05, reallotment of Adult Activities formula funds, as provided for by WIA Section 132(c), will be based on PY 2005 financial reports submitted by the states. Reallotment of funds among states under WIA will occur during PY 2006 based on obligations of PY 2005 funds made during PY 2005 (20 CFR §667.150 of the WIA interim final regulations). There was no recapture/reallotment of WIA Adult Activities funds in PY 2005.

6. **Additional PY 2006 Funding from the Dislocated Worker National Emergency Reserve for WIA Adult/Dislocated Worker Activities for Eligible States.**

A. Background. Section 173(e) of WIA provides that up to \$15 million from the Dislocated Worker national reserve is to be made available to not more than eight states with the largest ratio of adult program JTPA formula amount above WIA formula amount, in amounts equal to the difference between the allotment that a state would receive for adult training activities under the WIA formula and the state's allotment as calculated under JTPA Title II-A. One state is eligible for these additional PY 2006 funds for a total of \$130,477. These additional funds are to be used for Adult or Dislocated Worker program activities, as required by Section 173(e). See paragraph 7 below for reporting requirements for these funds.

B. NOO's. NOO's to the eligible state for the additional Section 173(e) 2006 funding amounts will be issued with an effective date of July 1, 2006, under a separate PY 2006 WIA grant agreement (see Attachment V).

C. Within-State Allocations. In accordance with the requirements of Section 173(e), these additional funds are to be distributed among local workforce investment areas (with no reservation for statewide workforce investment activities) on the basis of the same formulas used by the state to allocate funds within the state for PY 2006 Adult or Dislocated Worker programs. The allocation formulas are also to use the same data as used for the within-state final Adult and Dislocated Worker program formulas.

7. Reporting. For the WIA Adult and Youth programs, states will be required to submit one WIA quarterly financial status report for each of the fund sources received (including a separate report for each of the funding periods --July 1 funds and October 1 funds). This report will be divided into separate sub-reports detailing statewide activities; local area administration; local area youth program activities; and local area adult program activities.

For the additional Section 173(e) funding for Adult/Dislocated Worker program activities, which are tracked separately, the affected state is not to combine these funds with regular local area Adult and local area Dislocated Worker activities and local administration fund reports. Instead, that state is required to submit separate quarterly financial status reports for these designated funds using the same local adult, local dislocated workers, and local administration report formats, depending on how the state chooses to distribute the funds.

8. Inquiries.

Questions regarding these allotments and requirements may be directed to the appropriate Regional Office.

**WIA and Wagner-Peyser Statutory Formulas for State Allotments**

---

**Formula Descriptions**

---

**Youth Activities**

**Formula:**

- 1/3: State relative share of total unemployed in areas of substantial unemployment (ASU) (12 months ending 6/30)
- 1/3: State relative share of excess unemployed (12 months ending 6/30)
- 1/3: State relative share of economically disadvantaged youth (Census 2000)

**Minimums:**

- (a) If total amount available for States is \$1 billion or less:
  - State allotment cannot be less than
  - (1) 90% of States's relative share of prior year funding
  - (2) 0.25% of total available funds for States
- (b) If total amount available for States exceeds \$1 billion:
  - State allotment cannot be less than
  - (1) 90% of States's relative share of prior year funding
  - (2) 1998 allotment amount
  - (3) 0.3% of first \$1 billion plus 0.4% of amount over \$1 billion

**Maximum:**

130% of States's relative share of prior year funding

**Adult Activities**

Same as Youth Activities, except

- (a) Formula uses economically disadvantaged ADULTS instead of YOUTH
- (b) Threshold for selecting minimum provisions is \$960 million instead of \$1 billion

**Dislocated Workers**

**Formula:**

- 1/3: State relative share of total unemployed (12 months ending 9/30)
- 1/3: State relative share of excess unemployed (12 months ending 9/30)
- 1/3: State relative share of long-term unemployed (previous published Calendar Year)

**Minimum:** none

**Maximum:** none

**Employment Service (Wagner-Peyser)**

**Formula for 97% of funds:**

- 2/3: State relative share of civilian labor force (12 months ending 9/30)
- 1/3: State relative share of total unemployment (12 months ending 9/30)

**Minimums:**

- (a) 90% of States's relative share of prior year funding
- (b) 0.28% of total available funds for States

**Maximum:**

**Distribution of 3% of funds:**

- (1) States with civilian labor force below 1 million and under the national median civilian labor force density receive an amount which when added to their share of the 97% portion will result in an amount equal to 100% of their relative share of the prior year funding.
- (2) Remaining States losing in relative share receive a share of the remaining funds prorated based on the amount needed to achieve 100% of their relative share of prior year funding.

---

**Formula Data Factor Definitions**

---

**Youth and Adults Programs**

ASU: contiguous areas with unemployment rate of 6.5% or more

Excess unemployed: higher of:

- (1) excess unemployed (unemployment in excess of 4.5%) in ASU's; or
- (2) excess unemployed (unemployment in excess of 4.5%) in all areas

Economically disadvantaged adults: individuals age 22-72 meeting (or member of family meeting):

OMB poverty level or  
or 70% of lower living standard income level (LLSIL).

Economically disadvantaged youth: individuals age 16-21 meeting (or member of family meeting):

OMB poverty level or  
or 70% of lower living standard income level (LLSIL).

**Dislocated Workers Program**

Excess unemployed: unemployment in excess of 4.5%

Long-term unemployed: number unemployed 15 or more weeks

**Wagner-Peyser:**
