

Examples of Counting Periods of Participation for Exit-Based Indicators of Performance

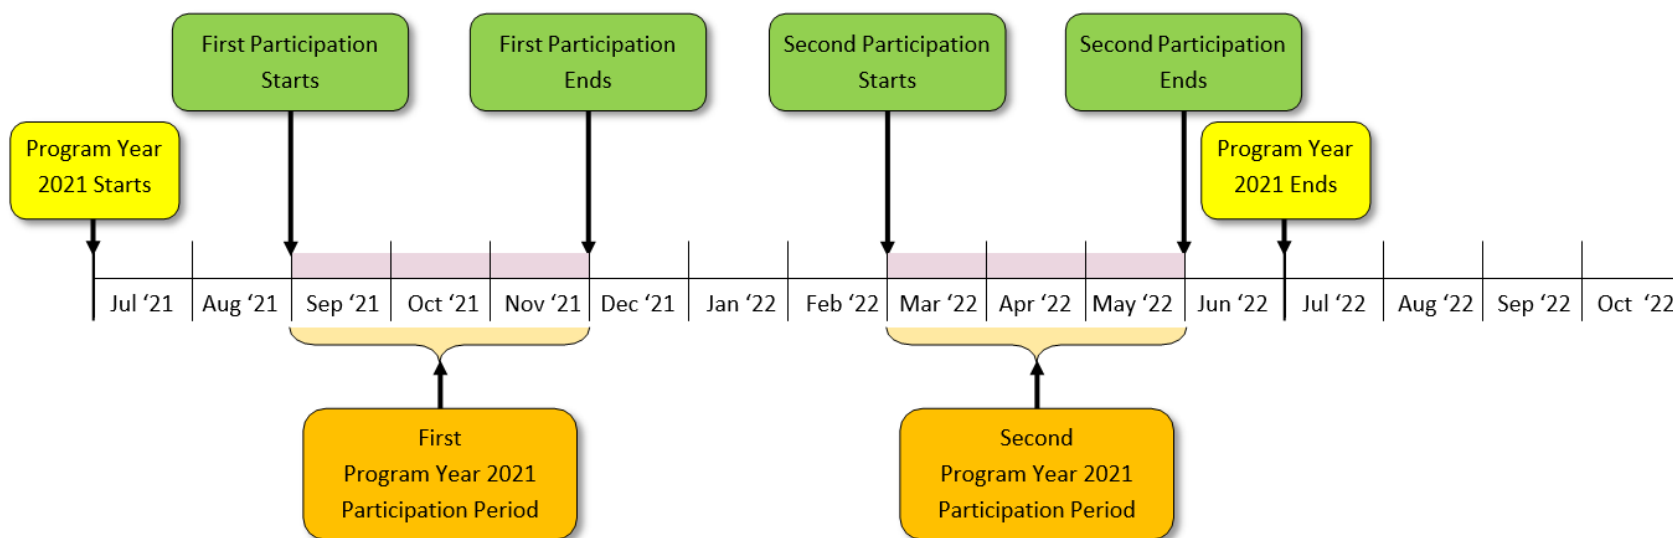

Examples of Counting Periods of Participation for Exit-based Indicators of Performance

Counting Periods of Participation: Examples for Exit-Based Indicators of Performance

Example 2

An individual:

- 1) becomes a participant in September 2021;
- 2) exits the program in November 2021;
- 3) re-enrolls and becomes a participant in March 2022; and
- 4) exits the program again in May 2022.

In this example, the participant has two periods of participation during a single program year. Because both exit dates occurred within the same program year (July 2021 – June 2022), the participant has two periods of participation for Program Year 2021. Therefore, exit-based performance indicators should be collected and calculated based off both periods of participation; two separate outcomes will be based on the November 2021 exit and May 2022 exit, respectively.

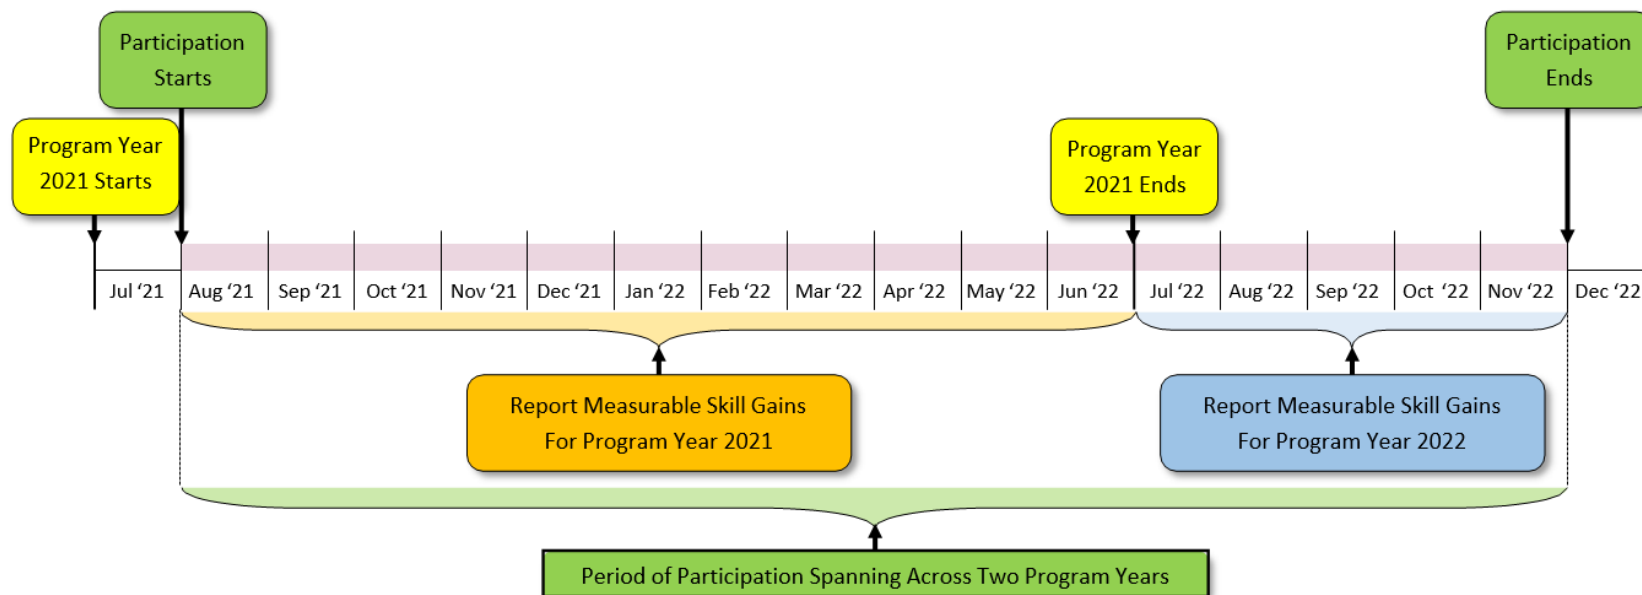

Example of Counting Periods of Participation for Exit-based Indicators of Performance

Counting Periods of Participation: Example for Exit-Based Indicators and the Measurable Skill Gains Indicator of Performance

Example 3 - REVISED

An individual:

- 1) becomes a participant in August 2021; and
- 2) exits the program in November 2022.

In this example, the participant has one period of participation which spans two program years (Program Year 2021 and Program Year 2022) and will be reported once for the purpose of exit-based indicators. Also, in this example, the participant must be reported twice (once in Program Year 2021 and once in Program Year 2022) for the measurable skill gains indicator because this indicator of performance must be reported at least once per program year for each participant and because the reporting is not triggered by exit. The individual is counted as a participant in both Program Year 2021 and Program Year 2022 because they continued to receive services after July 1, 2022. Exit-based performance indicators should be collected and calculated based on the November 2022 exit date.
